Guided Snowmobile Adventures:

Guided Snowmobile Adventures are great for the whole family!

Our tours use 2011 Ski-Doo Summits (550). Each tour is accompanied by 2 friendly, professional snowmobile guides. Our guides are the best around with each having over 20 years of individual experience in this area alone! On your tour, one guide will lead you to scenic play grounds while the other will follow behind the group to make sure all riders are confident, comfortable and warm. We want you to enjoy your time with us so all tours are kept in very small groups to optimize travel. However, tours will only go as fast as the slowest person in the group.
